EDUCATION

Atharva College of Engineering, B.E in Electronics & Telecommunication | Mumbai

2024 - 2028

CGPA: 7.7 / 10.0

SOFT SKILLS

- Deep Learner
- Strong problem – solving attitude
- Team Collaboration
- Willingness to learn new Technology
- Critical Thinking
- Leadership

LANGUAGES

- English
- Hindi
- Odia
- Marathi

ABOUT ME

Motivated and enthusiastic EXTC Engineering student with a strong interest in Embedded Systems and Robotics with knowledge of both software and hardware fundamentals. Hands-on experience through mini-projects and practical lab work. Eager to apply theoretical knowledge, gain real-world experience, and continuously enhance technical and professional skills.

SKILLS

- Programming : Python, C/C++ (Basics), HTML, CSS (Basics)
- Frameworks/ libraries: ROS2, OpenCV, NumPy, Pandas
- Machine Learning & Computer Vision: KNN (Model Training), YOLO (Basics)
- Tools: Git, Fusion 360, RViz, Gazebo Classic
- Electronics : Arduino, ESP32, Sensor Interfacing, Circuit Design, Basic Troubleshooting

PROJECTS

- Hand Gesture Recognition System :
Developed a real-time gesture recognition system using OpenCV and KNN.
- Holo Battalion (Mini Autonomous Bots):
Built and simulated autonomous robotic bots using ROS2 with communication via MQTT.
- Smart Authentication System - Voting & Attendance:
Designed a smart system for secure authentication using microcontrollers and sensors.

EXTRACURRICULAR / ACHIEVEMENTS

e-Yantra Robotics Competition - IIT Bombay

- Achieved AIR 6 (Nationwide) at eYRC 2025–26, IIT Bombay; Top All-Girls Team in India; selected for live showcase

Atharva Robotics Club – Designing Department

- Active member of Atharva Robotics Club, primarily contributing to the software domain, including programming, ROS-based development, and computer vision tasks

National Service Scheme (NSS) – Volunteer

- Active NSS volunteer involved in social awareness and community service activities
